Hot new nail polish color for summer.....Got Greige?

If you mix together **grey** and **beige** what would you get? **Greige!** Even though it sounds like a type of mold, it really is a cool color. Especially when we've had corals and pinks shoved down our throats every season. This is a great color that goes over well in the workplace as well as on the weekends. It flatters any attire. You can find this color in Chanel,

Buy Two Facial Peels and get One FREE Only \$130 (Save \$65)

The idea that we are not supposed to have chemical peels in summer time is very *outdated*. Today's sun protection makes it possible to safely perform peels or use Retin-A products all year round.

Call for your appointment today!
